

More Beef From Less Feed

NEW Mech-fiber® BEEF's integrated technology improves rumen function and digestive performance to give you more meat from every kg you feed.

Bringing together the new range of Mech-fiber® feeders with 'baleblend' big bale technology and the award-winning PACE performance monitoring and management system, the Mech-fiber® BEEF Programme gives you a unique system for improving the efficiency and profitability of your beef enterprise.

Improve your feed efficiency

Get higher weight gain from less feed

Reduce the finishing period

Farm Demo: Wednesday 8th of June
Farm: Brian Duncan, Garryduff, Dungourney, Cork
Time: 11.30 Sharp.
